WEB DEVELOPMENT
ACTIVITY-BASED LEARNING

Consolidated screenshot report | 26 October 2026

This report brings together the nine submitted screenshots into one organized PDF. It documents the GitHub repository and the browser output of three website activities. The screenshots are reproduced as supplied; the original HTML and CSS source files were not attached.

Contents

1. GitHub repository overview

2. Activity 8 - Online Food Ordering Website

3. Activity 14 - Healthy Food and Nutrition Website

4. Activity 17 - Tourism and Heritage Information Website

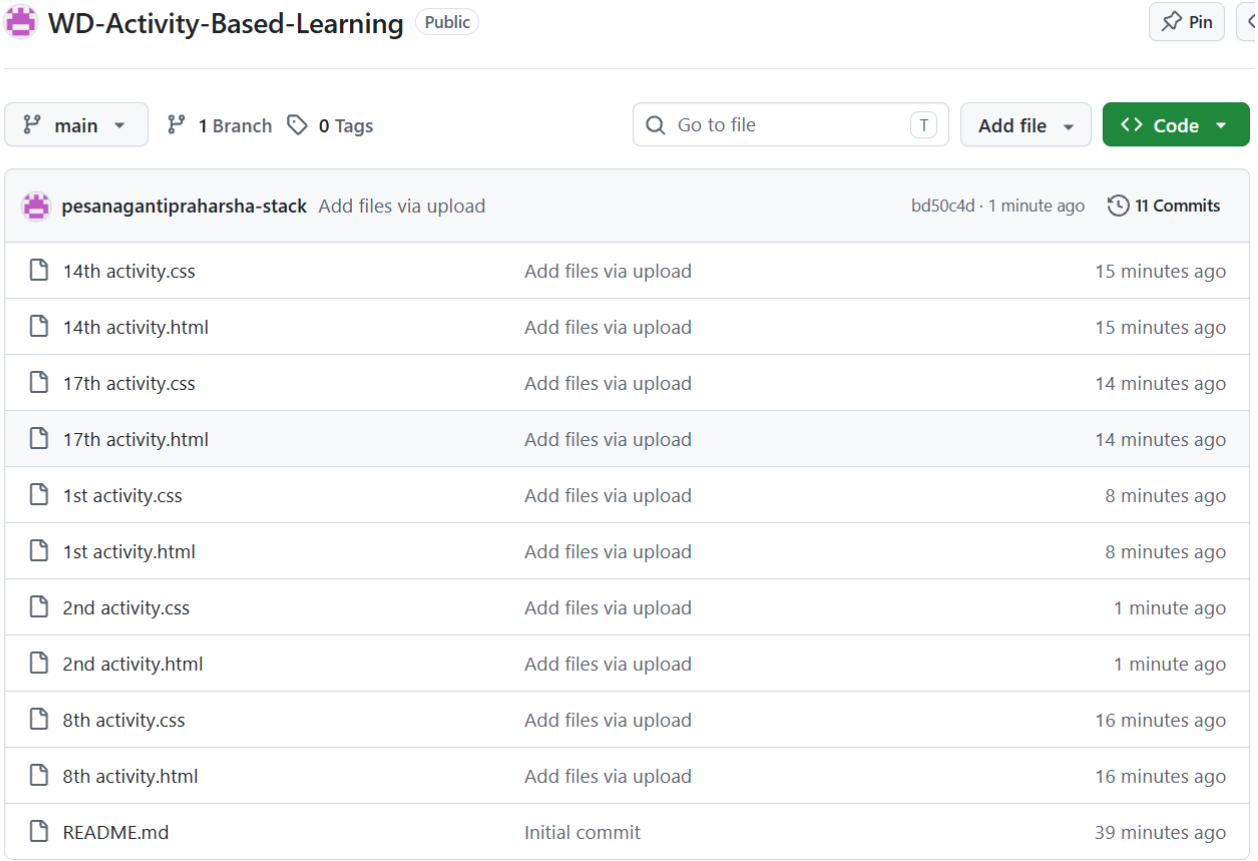

Figure 1. GitHub repository overview showing separate HTML and CSS activity files.

ACTIVITY 8 | ONLINE FOOD ORDERING

The Foodie interface includes a navigation bar, restaurant banner, promotional offer, menu categories, food photographs, prices, order buttons and customer reviews.

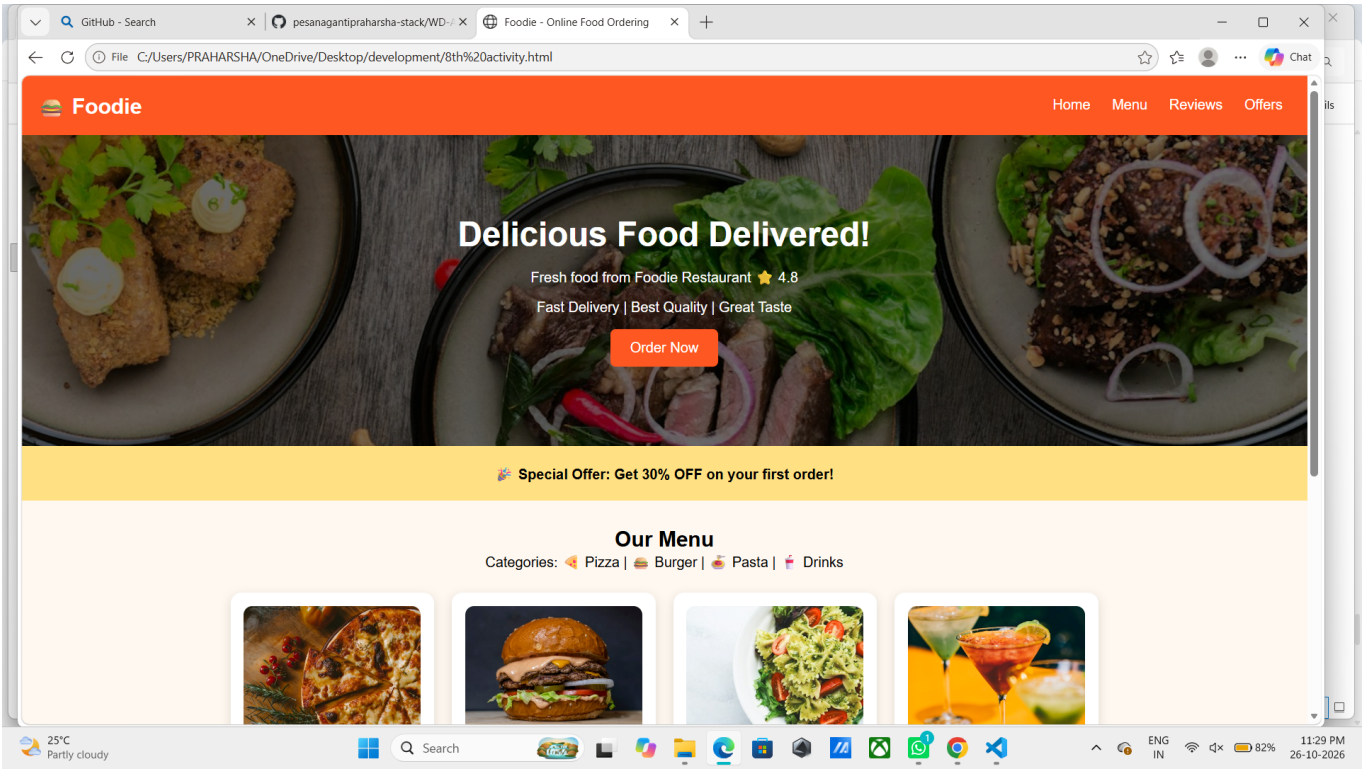

Figure 2. Homepage banner, navigation, offer and menu preview.

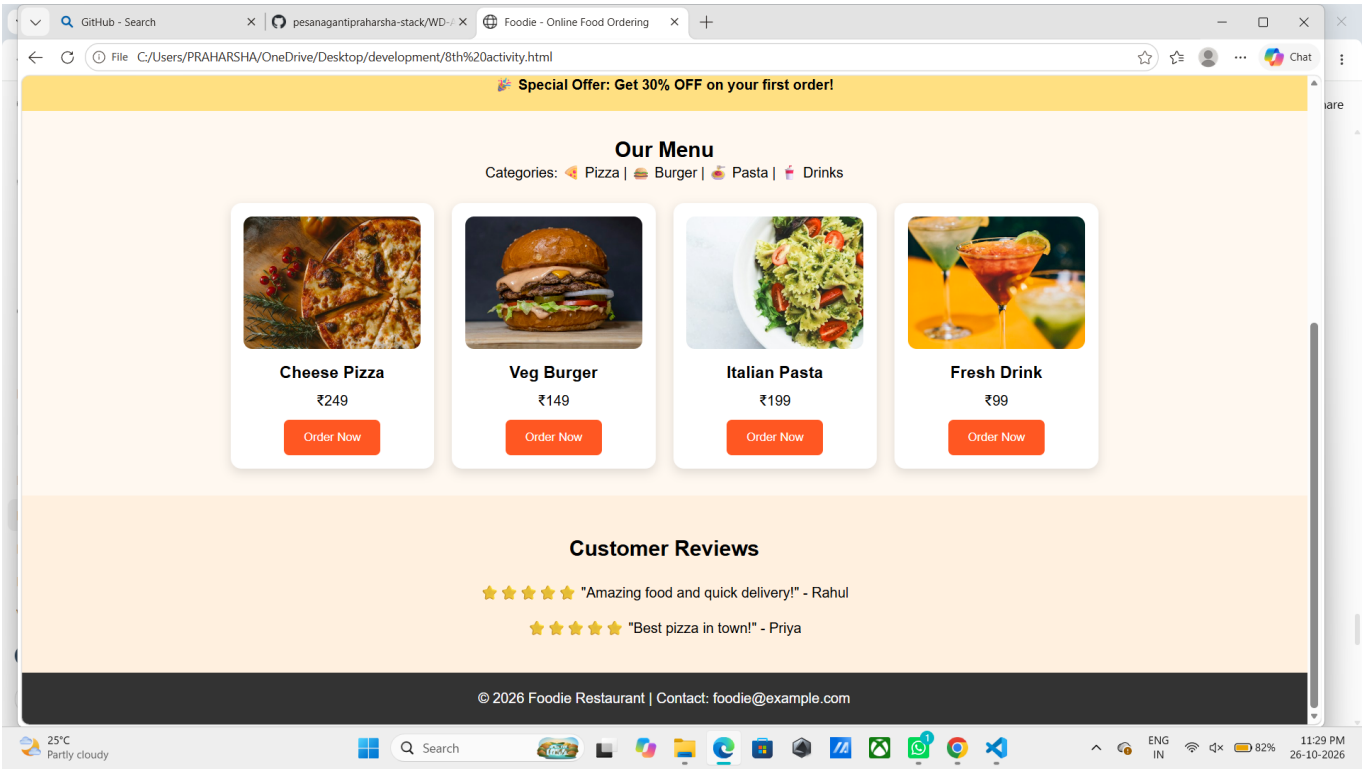

Figure 3. Food cards, prices, ordering buttons, customer reviews and footer.

ACTIVITY 14 | HEALTHY FOOD AND NUTRITION

The HealthyLife interface presents food categories, illustrated recipes, ingredient lists, approximate calorie information, a sample balanced meal plan and general healthy eating tips.

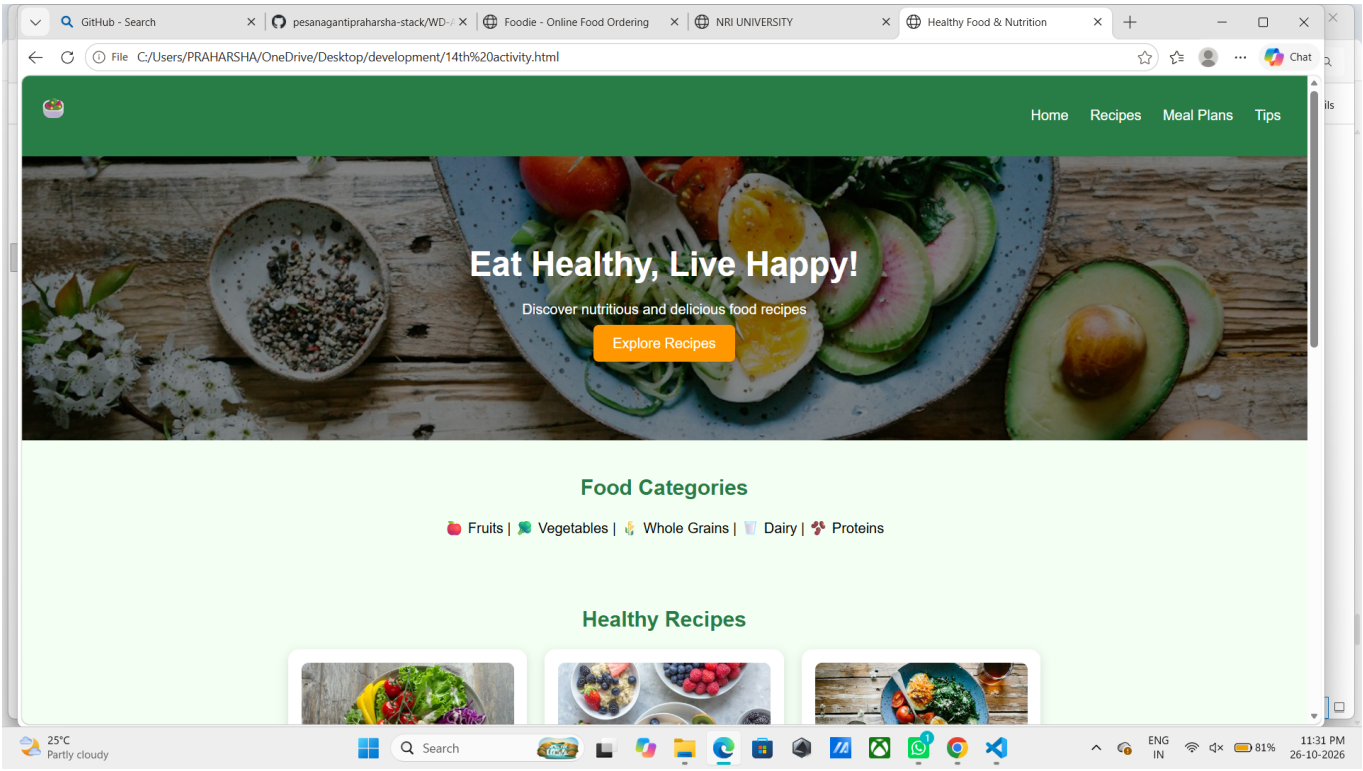

Figure 4. Homepage, food categories and healthy recipe section.

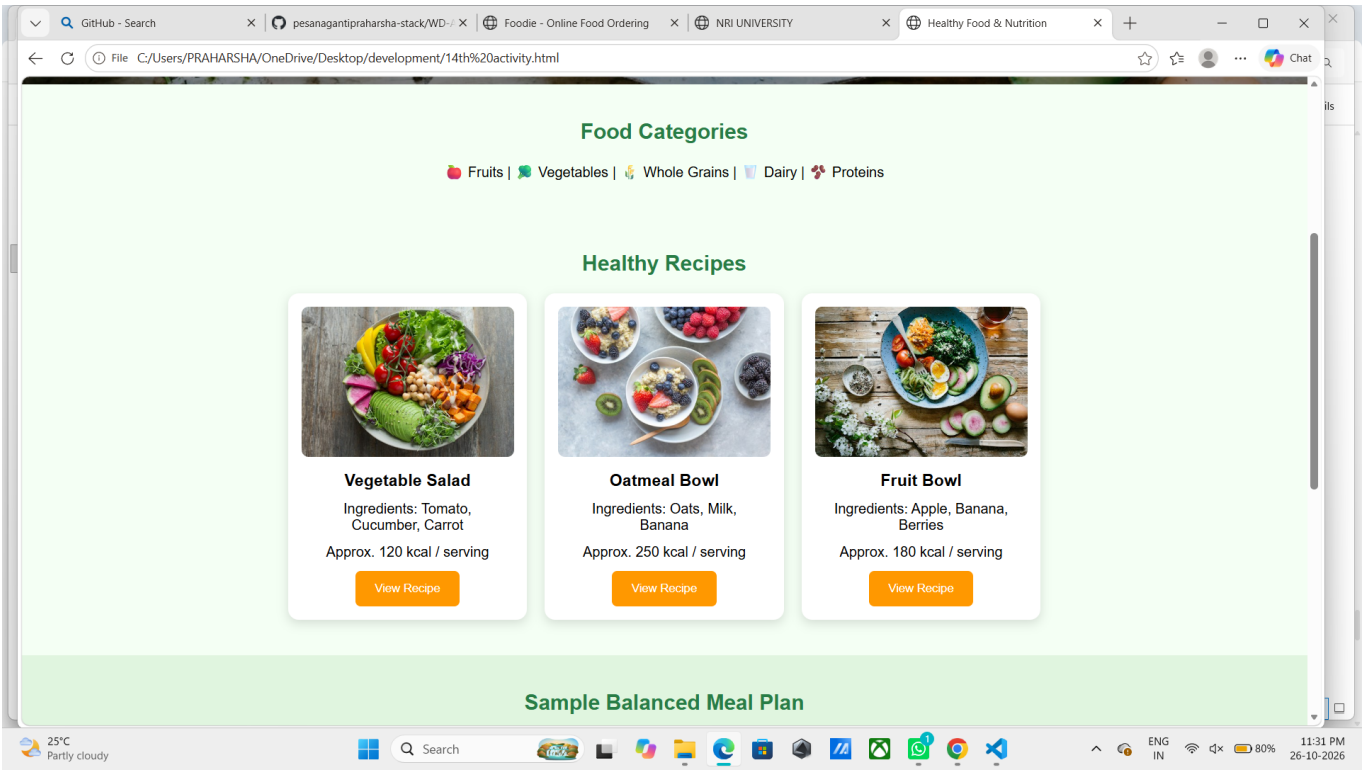

Figure 5. Recipe cards showing ingredients, illustrative calorie estimates and recipe buttons.

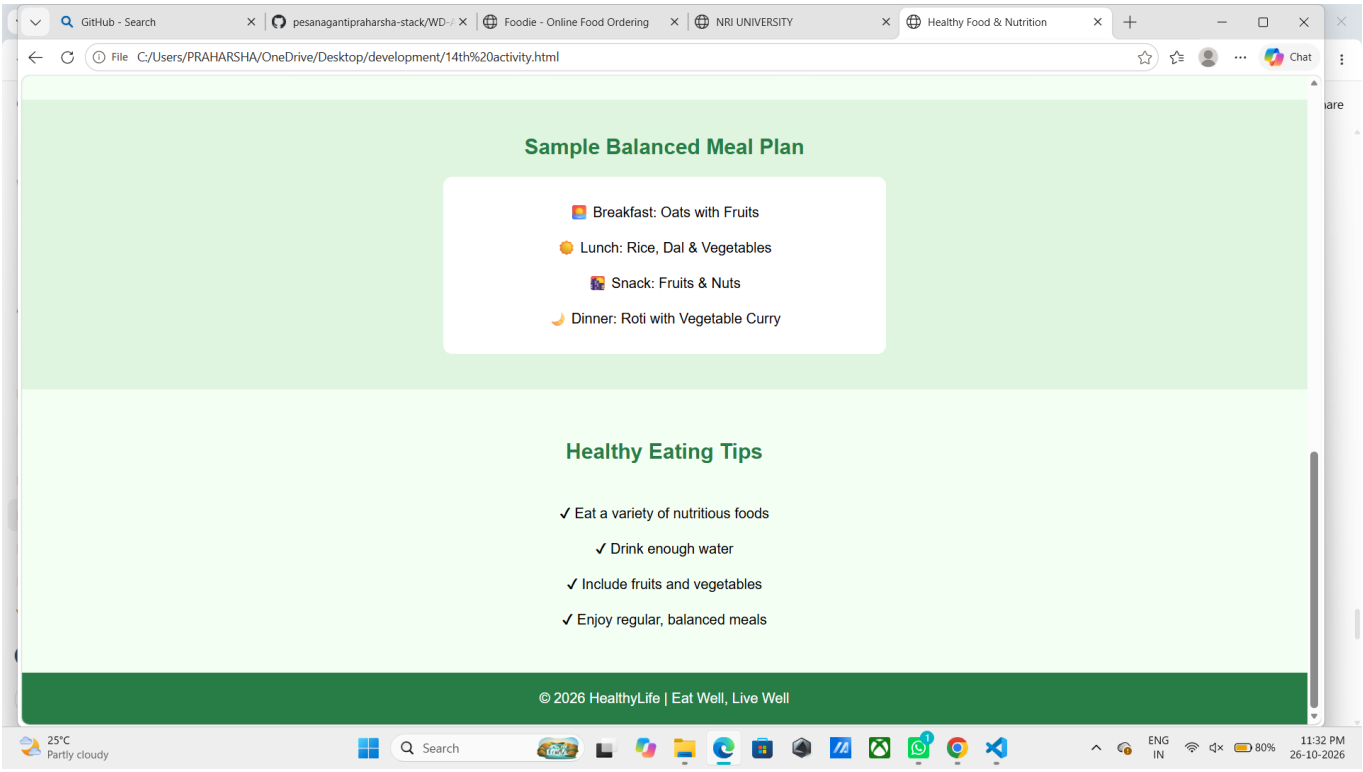

Figure 6. Sample balanced meal plan, healthy eating tips and footer.

ACTIVITY 17 | TOURISM AND HERITAGE

The Explore India interface presents famous destinations organized by region and attraction type, cultural festivals, local cuisine, travel advice and an image gallery.

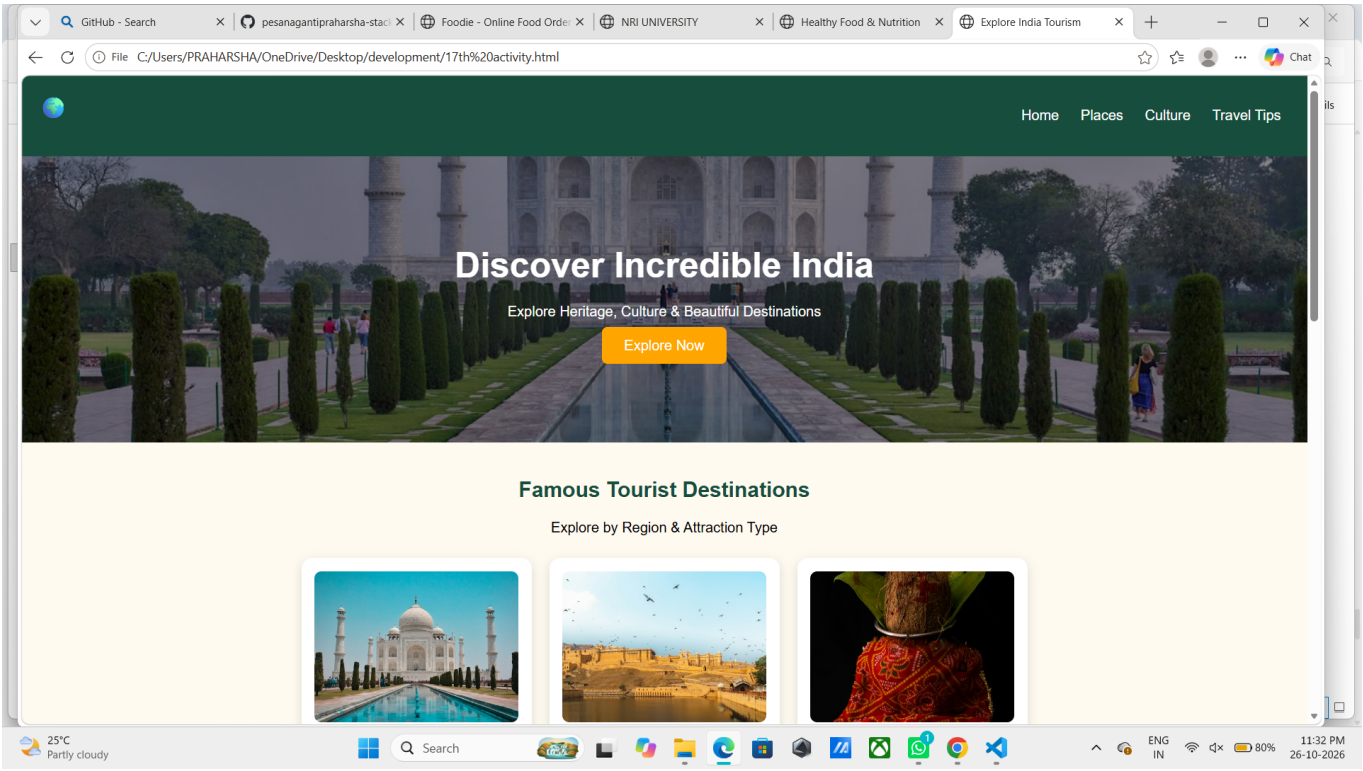

Figure 7. Tourism homepage banner and destination cards.

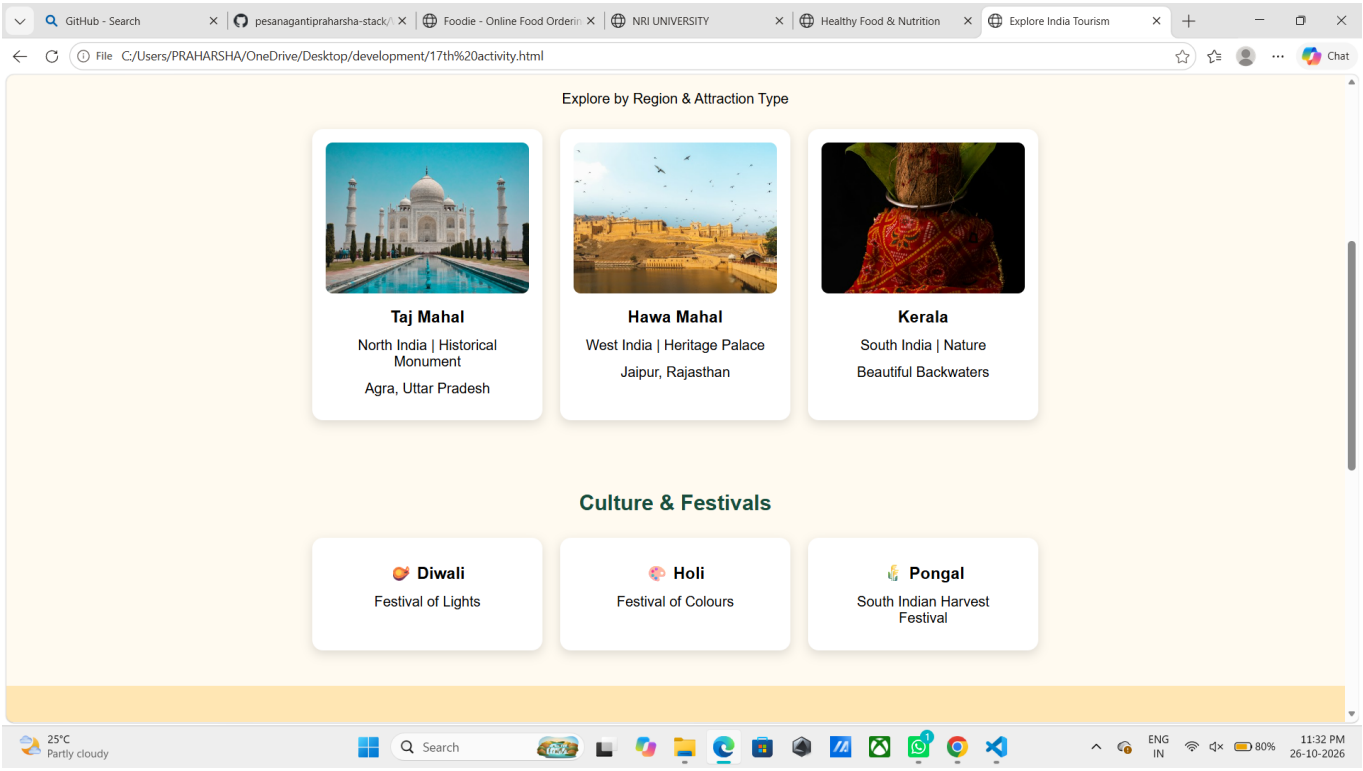

Figure 8. Destination details and cultural festival cards.

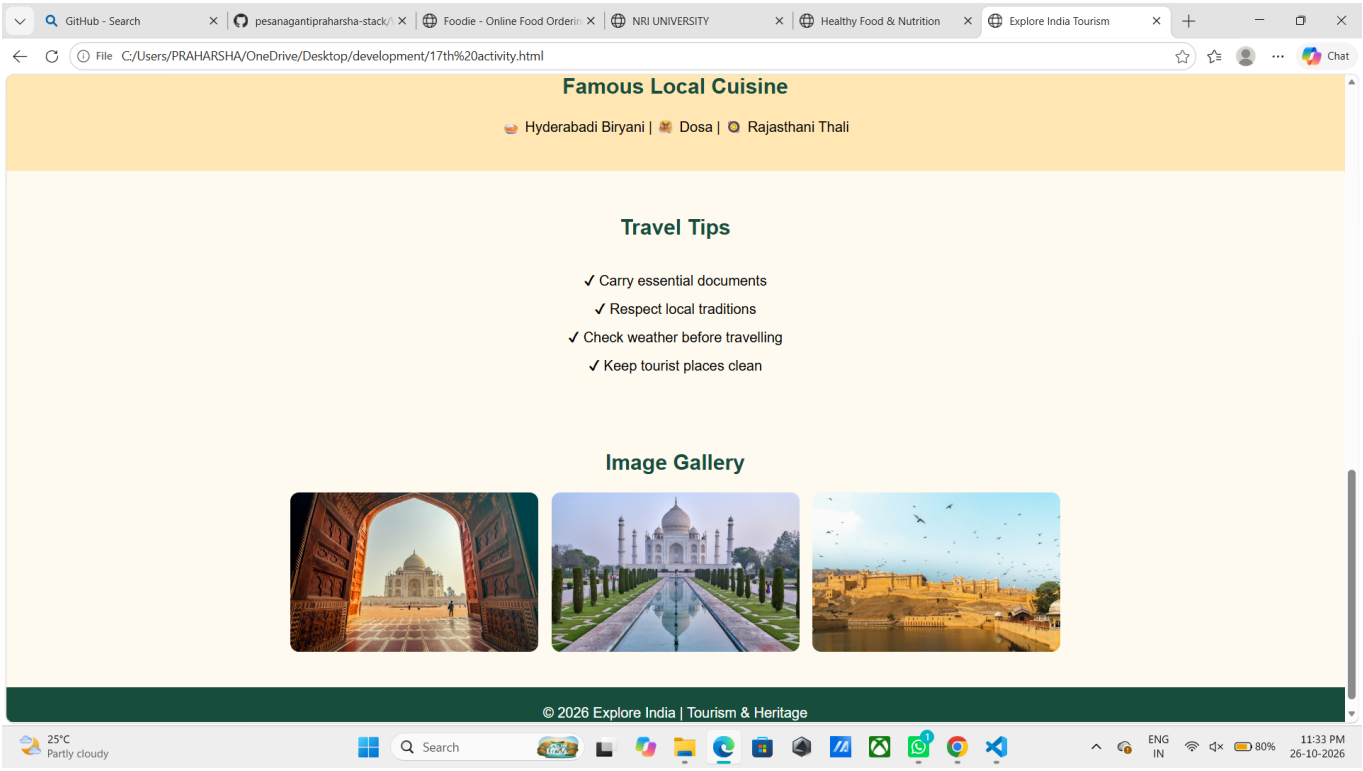

Figure 9. Local cuisine, travel tips, image gallery and footer.

End of consolidated report.
